Digital Tech Frontier, L.L.C.

Designer / Developer

August 2010 - October 2012 (2 years 3 months)

Tempe, AZ

Digital Tech Frontier is fast becoming the leader of virtual technology in education. As Program Director, DTF's multiple ventures can now be aligned by one collaborative vision through the implementation of PMI's internationally accepted Project Management methodologies. We have made the leap from virtual reality, a manufactured perception of reality, to an augmented reality - a technological enhancement of the world we live in, where relevant information, knowledge and media become readily available for use in our daily lives. The introduction of augmented technology within educational environments has shown measurable improvements in levels of comprehension and retention coupled with remarkable increases in the rate with which the information is digested.

We at DTF hope to contribute to the educational community by making learning fun, and productive for both students and educators alike. DTF can, once again be where "Dreams become reality!"

Census 2010 - Vangent, Inc.

Team Lead - Document Preparation

October 2009 - September 2010 (1 year)

Phoenix Data Capture Center (PDCC)

Supervised a team of 26 assigned to the 2010 Census - Paper Data Capture project

Established, trained and maintained production techniques and procedures, while maintaining Title 13 confidentiality and high quality standards.

Met all required contractual Service Level Agreements and milestones by exceeding all production and quality standards.

Successfully processed 70 million Census forms using a manual process, resulting in an acceptance rate of 99.997%. the department averaged 476,000 forms / day; 25% of time, production surpassed one million forms daily, with a peak week of 6.6 million forms, while maintaining quality.

Responsible for compliance with all workplace conduct, emergency, safety policies and directives.

Maintained accurate and updated employee personnel files. Monitored all facets of employee performance and provided ongoing coaching and counseling as needed. Maintained Bureau of Census Security Clearance

required by the Department of Commerce. Cross-trained and certified in 12 additional departments providing personnel support as needed.

Techniques and procedure improvement specialist.
Subject Matter Expert.

High security facility.
Public Trust Suitability Clearance.

Accomplishments:

Developed Core Process Procedures for the 2010 Census designed to supplement departmental SOP - A comprehensive step-by-step document illustrating new optimized handling techniques, streamlined workstation setups, workflow improvement scenarios and computer generated illustrations for use by over 1100 production staff daily.

As a result, the Phoenix Paper Data Capture Center reported the highest volume (148 M), best quality (4.9998) and the lowest error rate (.0028) of the 3 Capture Centers.
